

TIP

Our Green Leaf™ is your guide to a better environmental choice!

The Green Leaf™ is an ecolabel created by Blue Ribbon Supply to help identify products with environmentally preferable health, performance and sustainability criteria. This helps our customers in identifying healthier, safer and greener services, and products with reliable performance benefits. We chose to use a green leaf to identify products because green leaves represent hope, renewal, and revival – all traits we believe these products embrace.

The award of a Green Leaf to a product is based on our evaluation of a many factors that affect the environment. We take a life-cycle approach to our evaluation process, considering raw materials, manufacturing, use, total life cost, and re-use or disposal. Only products that meet our stringent, yet balanced standards, receive our Green Leaf award.

ACTIVA® ECO HOT CUPS

- for Hot / Cold Use

Eco Hot Cups are lined with a vegetable-based coating rather than traditional poly-lining. This allows the cups to be 100% biodegradable and compostable.

**PERFECTOUCH® PAPER CUPS COFFEE DESIGN - for Hot / Cold Use**

Patrons generally prefer paper cups; however, they normally find conventional paper cups difficult to handle for hot drinks. Perfectouch cups are insulated and feature a textured non-slip grip, yet they are uniquely made entirely from paper and contain no polystyrene. This distinctive feature eliminates the need to use a sleeve or to double cup. Snap on domed lids feature a sipping hole for easy and comfortable drinking.

PERFORATED PAPER KITCHEN ROLL TOWELS

Great for a wide variety of applications, our perforated paper kitchen roll towels are a convenient choice for quickly wiping up liquid messes or for drying hands at your hand sink. The thickness and material construction of these various kitchen towels make them each uniquely strong and absorbent for specific uses (e.g. wiping spills from surfaces, drying hands, etc.) and soft to the touch; while perforations ensure each roll of paper towels rips easily into manageable sheets.

KEURIG® K-CUP® PODS

Single-serve Keurig K-Cup Pods reduce the time required to brew coffee, teas and cocoa drinks by simplifying the brewing process with the elimination of the need to measure out portions, flavorings, and additives from packages and bulk containers and makes clean up fast and easy. Keurig K-Cup Pods also help to keep unused ingredients fresher by individually packaging single-serve portions separately without exposing unneeded product supply to light, air and contaminants. This makes the Keurig K-Cup system ideal for in-room coffee, tea and cocoa drink service. With dozens of coffee, tea and cocoa drink varieties available, Blue Ribbon Supply is an excellent source for Keurig K-Cup pods.

The coffees, teas and cocoa drinks that come in Keurig K-Cup Pods are brewed in a Keurig brewing machine to eliminate any variability you might have brewing with a conventional coffee maker.

Barista Prima Coffee House Coffee			
This rich, heavy-bodied cup with its ripe fruit and berry notes epitomizes the time-honored Italian tradition of dark-roasted coffeehouse brews. Bold yet ideally balanced, with a subtle hint of smokiness and a sweet, clean finish, Barista Prima Coffee House Italian Roast is a hearty and flavorful testament to the art of dark roasting. Its uniquely potent flavor profile has been masterfully crafted to occupy a special niche between the bright, bold taste of our Colombia offering and the intense, smoky-sweet essence of French Roast. Coffee People			
Born in the Great Northwest, Coffee People celebrates a quirky, down-to-earth attitude with its own special brew of bold, flavorful coffees. Now you can enjoy this popular coffee with all its personality...one perfect cup at a time.	Deliciously Dark	4/24 ea.	16546
Diedrich Coffee			
Made with 100% Arabica beans, this is the darkest of Diedrich's roasts. It is a blend of coffees that lend themselves particularly well to being heavily roasted, producing a hearty taste with a light desirable toasty flavor. It is a strong, but not bitter or burnt taste, and is certainly not for the faint of heart. This French Roast is often enjoyed as an accompaniment to after-dinner dessert or simply as a great "stand alone" cup of coffee.	French Roast Regular	4/24 cs.	13670
	French Roast Decaffeinated	4/24 ea.	13671
Green Mountain Coffee			
Green Mountain Extra Bold coffee blend is as deep and intense as the night itself, with dried fruit and chocolate notes that lead to a subtly sweet finish. This extra bold blend contains more coffee than regular K-Cup pods to heighten the coffee drinking experience. The flavor is amazing and the aroma it leaves behind is both satisfying and comforting. There is nothing like a cup of Green Mountain Extra Bold coffee in the morning.	Dark Magic Extra Bold Regular	4/24 cs.	13008

Newman's Own Fair Trade Organic Coffee			
Newman's Own Fair Trade Organic Coffee gives you great taste and a chance to make a real difference in the lives of coffee farmers around the world. Because farmers get a fair price for their crops, they are better able to take care of their land, their families and themselves. This inspired blend of medium-roasted Central American coffees and darker-roasted Indonesians is rich and robust, with ample body to stand up to all the cream and sugar that you might want to add. KEURIG® K130 1-CUP IN-ROOM HOTEL BREWER

The newest trend in single cup coffee brewing, the Keurig® K130 1-cup 8 oz. coffee brewer was specifically designed for hospitality. Its step-by-step pictorial instructions allow any guest to operate the machine with ease. Unlike conventional coffee service machines, the Keurig® K130 1-cup coffee brewer brews 1 Keurig® K-Cup® at a time, leaving no water in the brewer. Convenient, safe and efficient, the cup sensor feature prevents the brewer from brewing without a cup in place, while the auto shut off feature provides maximum power efficiency after each brew is complete. Best of all, the system saves housekeeping time and effort! There is no drip basket or carafe to clean, no glass to shatter, no messy filter and excess water to remove. All brewing takes place in the K-Cup® Portion Pack (which is easily disposed of, and with zero mess).
