**LAUNDRY STAIN REMOVERS**

Stains themselves can be roughly grouped into several classes: enzymatic, oxidizable, greasy, and particulate. This is really something of a simplification. In reality, a particular stain will have a number of components, which may fall into more than one of these categories. For example, a stain from something like a tomato catsup would have a colored, oxidizable component, but it also would probably be a little greasy. As such, stain removers tend to be a mixture of many of the agents we'll discuss to tackle these multi-component stains. To determine the best stain remover for your task, identify the stain soil type and you will discover the best stain remover to use listed below.

### VASKA® PROFESSIONAL LAUNDRY SYSTEM

The Vaska professional laundry system is comprised of our automated on-premise laundry dosing system technology combined with our professional strength laundry products and closed-circle pail recycling system. This unique system for the commercial in-house laundry has been formulated specifically for the institutional and industrial markets and is as environmentally friendly as possible. With Vaska, you will realize the cleaning strength of a professional product line with none of the harmful effects to our environment that other products have.

We would be pleased to visit your on-premise laundry to conduct a (no obligation) cost analysis for you. Call us today and ask for our Vaska laundry specialist in your area. Our suggestions just might give you the brightest, cleanest, greenest and lowest cost washload you've ever seen. Potentially shorter wash cycle times using automatic liquid feed for more accurate dosing over powder and solid systems helps prevent contact with chemicals while our dilution control saves money and helps prevent operator errors. Depending on qualifications, our electronic dosing equipment may be available at no charge to qualified accounts. Service is available as needed with normal response within 24 hours.

Vaska professional laundry products include the following environmentally safe products:

10407

#### VASKA® HERBATERGENT

This environmentally sensitive, scent-free, laundry detergent effectively removes ground-in dirt and stains without using harsh chemicals than can damage fabrics. This product does not contain NPE's (nonylphenol ethoxylates), carcinogenics, chlorine, phosphates, alcohol, optical brighteners, synthetic scents, animal ingredients or any materials listed by ACGIH as hazardous. Endorsed by the US EPA Design for the Environment (DFE) Safer Choice Program.

PACK	STOCK NO.	REF. NO.	PART NO.
5 gal.	20000	CLD152C	10407

9639

#### VASKA® OXYGEN BRIGHTENER

Vaska Oxygen Brightener is a hydrogen peroxide based bleach that powers away stains while brightening both whites and colored fabrics. It contains biodegradable surfactants and does NOT contain any fragrance, dye or chlorine. Endorsed by the US EPA Design for the Environment (DFE) Safer Choice Program.

PACK	STOCK NO.	REF. NO.	PART NO.
5 gal.	20016	CLD165	9639

10353

#### VASKA® SEA SALT PLUS

Vaska Sea Salt Plus is a powerful alkaline builder that is used in conjunction with laundry detergent when determined necessary to help remove all forms of soil from materials. Contains a mild sodium hypochlorite solution. This product is safe to use on whites, synthetics or natural fabrics and does NOT contain NPE's (nonylphenol ethoxylates), carcinogenic ingredients, phosphates, alcohol, optical brighteners, synthetic scents, animal ingredients or any materials listed by ACGIH as hazardous.

PACK	STOCK NO.	REF. NO.	PART NO.

10022

**VASKA® HERBASOFT FABRIC SOFTENER**

Vaska Herbasoft Fabric Softener is an environmentally sensitive, tallow based fabric softener that helps to dramatically reduce static cling to make folding and ironing much easier and faster. It is suitable for both commercial or front loading HE machines and does NOT contain fragrance or dye. Readily biodegradable for cleaner waterways. Endorsed by the US EPA Design for the Environment (DFE) Safer Choice Program.

PACK	STOCK NO.	REF. NO.	PART NO.
5 gal.	20076	CLD145	10613

10613

**VASKA® CLEAN BREAK**

Vaska Clean Break is a moderate alkali builder that is used in conjunction with Vaska's Herbatergent when determined helpful to the rapid break down of grease and oily soils present during the wash cycle. Vaska Clean Break does NOT contain harsh chemicals such as caustic soda or sodium metasilicate and is phosphate free and readily biodegradable. Endorsed by the US EPA Design for the Environment (DFE) Safer Choice Program.

PACK	STOCK NO.	REF. NO.	PART NO.
5 gal.	20063	CLD172C	10408

10408

**VASKA® DE-IRON**

Vaska De-Iron is specially formulated to neutralize any alkaline residues that might be present from detergents, water hardness minerals, and iron during the rinse cycle. Vaska De-Iron helps to eliminate iron stains and browning during ironing.

PACK	STOCK NO.	REF. NO.	PART NO.

### BASKET TRUCK - Knockdown for easy shipping and storage

Our basket truck design incorporates the sturdiness and durability you would expect in a basket truck, with the easy shipping and storage benefits of a knocked-down unit. Constructed with a zinc plated all-welded square heavy gauge steel tubing base and frame, this truck assembles quickly to provide efficient and effective service for many years. The easily cleaned smooth finish 18 ounce vinyl liner is flame retardant (NFPA-701) and is mold, mildew, UV and tear resistant. Industrial grade 3 inch non-marking casters with polyurethane tires come standard. 4 inch casters are available as an option. Basket weight capacity: 250 lbs.
