

### Clean & Sanitize without Chemicals!

- **Safe** - Reverts to water when done. Leaves no residual odors or chemicals. 100% chemical free cleaning!
- **Effective** - Kills numerous bacteria including *E.coli*, salmonella, etc.
- **Money Saving** - No need to purchase or inventory numerous cleaning chemicals
- **Fast** - Eliminates rinsing in the sanitizing and disinfecting steps
- **Employee Friendly** - No safety training required as with standard chemicals

The patented lotus® Professional Cleaning System process turns ordinary tap water into the world's most effective chemical free sanitizing and cleaning system by infusing water with ozone. This system will eliminate germs, odors, stains, mold, mildew and many other contaminants on any item or surface, including food.

FDA, EPA and NSF registered and approved, the lotus® Professional Cleaning System provides the safest, greenest, and most cost effective solution to cleaning and sanitizing problems. The lotus Professional Cleaning System is perfect for use in spa and gym areas, dining facilities, public areas (including restrooms) and in all food preparation areas, without rinsing. This system was recognized by Time Magazine as one of the "Best Inventions" and the founder was recently named Innovator of the Year!

This product may qualify for LEED EQ and Innovation points.

- lotus® water is 3000 times faster and 50% more powerful than chlorine bleach
- Clean and sanitize furniture-tops, fixtures, mirrors, telephones and coffee units
- Deodorize drapes, bed linens and comforters - leaves no residue
- Safely remove stains from carpeting, upholstery and other water safe fabrics
- Clean and sanitize all bathroom fixtures including shower grouting and toilet bowls
- Spray into the AC unit and the air to eliminate musty odors in the room

**IT'S EASY!**

**Here's all you do:** Fill the trigger-spray bottle with tap water, place on the main unit and push a button. It is ready to sanitize in about two minutes. You have 1 hour for cleaning (15 minutes for sanitizing) to use the lotus® water before it begins to revert to plain water; a count-down timer on the unit tells you when to reload and recharge.

**DURA STUFF® GREEN™ PLASTIC TRASH CONTAINER LINERS**

In keeping with our commitment to the environment, we now offer Dura Stuff plastic trash container liners. Dura Stuff Green products are produced using recycled plastic, which reduces plastic in landfills. The recycled plastics are then combined with an oxobiodegradable proprietary application method to produce the film for the bags. When discarded in soil in the presence of microorganisms, moisture and oxygen, Dura Stuff Green products decompose into simple materials found in nature. This product may qualify for LEED MR points.
