

WATERHOG ECO FLOOR MATS

Entryway mats are a great option because they stop dirt that would otherwise require removal throughout your building. Consider that 80-90% of dirt inside a building comes in on people's feet. Mats can increase the life of floor finishes and reduce the need for polishing or burnishing. Mats can extend the life of carpeting and reduce the need for wet cleaning. Rubber mats are a greener, more natural choice than vinyl. Mats that are a minimum of 10' and are strategically located directly inside all public entry ways may qualify for a LEED EQ point.

FYI

HOST DRY CARPET CLEANER

Certified by Green Seal, Woolsafe approved and a member of the US Green Building Council.

HOST contains a balanced blend of water, detergents, wetting agents and natural ingredients. As the low moisture HOST Cleaner is brushed through the carpet, the absorbent particles deep clean by dissolving, trapping and removing spots, spills and greasy, oily dirt. Like a sponge in a kitchen, HOST holds and controls the cleaning liquids so dissolved dirt doesn't run into carpet backing.

Packed: 30 lbs. buckets
Comp No.: E.8931.....\$64.95 /ea.
