

Energizer. BATTERIES AND INNOVATIVE CHARGERS

Long lasting, More Power. More Often. Energizer® Rechargeable AA 2500 mAh batteries provide long lasting rechargeable battery power — lasting up to 4 times longer in digital cameras versus leading ordinary alkaline (varies by device and usage). They also hold a charge for up to 6 months and can be recharged 100's of times. So, they're ready when you are. Recharge them with the charger below. This product may qualify for LEED MR points.

Rechargeable AA

Rechargeable AAA

Rechargeable C

Rechargeable D

Rechargeable 9V

STOCK NUMBER	DESCRIPTION	PACK	PRICE
NH15BP-4	Rechargeable AA	4 each	\$12.95/pkg

NH50BP-2	Rechargeable D	2 each	\$9.95/pkg
NH22NBP	Rechargeable 9V	1 each	\$9.95/ea.

ENERGIZER FAMILY CHARGER

Features & Benefits:

- The ultimate family battery power station
- Super safe – will only begin charging when the lid is closed
- Easy to read charge status indicator
- Charges up to 8 AA, 8 AAA, 4C, 4D or 2 9V NiMH rechargeable batteries
- Charges in 2-7 hours depending upon number of batteries and battery type

Packed: 1

Comp. No. : CHFC.....\$27.95

LED INDUSTRIAL FLASHLIGHT

Features and Benefits:

- UL/MSHA/CSA Approved Safety Flashlight
- Three bright white Nichia LED bulbs with focused lens for uniform spot
- Powered by 2 AA batteries (not included)

Packed: 6 • Stock No.: IN2AALED

Comp No.: E.6772.....\$65.95 /cs.

LED INDUSTRIAL FLASHLIGHT

Features and Benefits:

- UL/MSHA/CSA Approved Safety Flashlight
- Powerful 1 watt LED by Lumileds is over 12 X brighter than standard
- Powered by 2 D batteries (not included)

Packed: 6 • Stock No.: IN2DLED

Comp No.: E.6773.....\$119.95 /cs.

Energizer

RECHARGEABLE LED FLASHLIGHT

- Plug-in amber locator light
- Automatically Turns On In Power Outages
- Up to 1,000 charge cycles
- 2 hours of continuous usage

Krypton bulb. Built-in amber LED locator light. NiMH rechargeable battery. Covers only one outlet when recharging.

Packed: 1

Comp. No. : RC251BP.....\$14.45/ea.

GO GREEN

GO GREEN® BATTERIES PerfPower Alkaline

Packed: 100 Comp. No. : DU021.....\$41.95/cs. (\$0.42 ea)

GoGreen Industrial Alkaline 9V

Packed: 40 Comp. No. : DU016.....\$54.95/cs. (\$1.37 ea)

ELECTRONIC LOCK BATTERY HOLDER

These battery holders are able to replace your expensive manufacture-specific batteries with inexpensive, standard AA rechargeable batteries. They are easy to use and can be applied to most hospitality electric locks that currently require expensive, wrap-around style batteries. The compact battery holder is equipped with a dual or three wire connector specifically designed to be compatible with the most popular brands of hospitality electronic locks.

Our 4 and 6 battery holder offer the same performance as the more expensive wrap-around style batteries specified by lock manufacturers. You now have the opportunity to replace your batteries when a discharge occurs, eliminating the need to purchase the expensive battery packs, which are normally put together with the lowest quality batteries.

Over time, the batteries that power electric locks need to be removed and replaced. Currently, these batteries are only available through the manufacturers of the electronic locks which make the batteries not accessible to everyone at all times and less inexpensive. The Battery Holder is an alternative which allows you to save money, the environment and the planet. This product may qualify for LEED MR points.
